7. On 10 October, the camp on the road to Crawinkel and the tank parking area, ammunition dump and dispensary were vacated. [REDACTED] entraining operations were conducted between 19 September and 4 October.¹ The old camp in Ohrdruf was occupied while the tent camp to the south had been removed.⁴
8. The Hermann Goering Kaserne in Dresden has been occupied to capacity since 27 September. On 5 October, the main building of the Napola Boys' School in Klotzsche was fully lighted.⁵
9. All troop units of the Cottbus military post returned from the troop training grounds between 6 and 11 October.
1. [REDACTED] Comment: The train carried troops and equipment of the 8th Guards Army for fall maneuvers in the Dessau area.
2. [REDACTED] Comment: The maneuvers in the area south and southeast of Rathenow can only involve units of the 3rd Shock Army, since elements of the 4th Guards Mechanized Army, which had practiced in this area after 20 September, had completed their exercise on 29 September.
3. [REDACTED] Comment: The two trains probably carried elements of the 4th Guards Mechanized Army which, between 2 and 5 October, had moved from Templin to the area west of Berlin for exercises.
4. [REDACTED] Comment: These observations confirm the departure of the 20th Guards Mechanized Division from Crawinkel. The bulk of the division moved to the area north of Dessau for exercises while the remainder returned to their home stations. On about 10 October, the old camp in Ohrdruf was occupied by small elements of the 39th Guards Rifle Division. Other elements had left for the Dessau area prior to 8 October.
5. [REDACTED] Comment: Indications of the return of the 11th Guards Tank Division from Koenigsbrueck to Dresden have previously been reported.
